See, Learn, and Discover Together. Join ART:1 Society to meet friends and experience a world of modern & contemporary art, with benefits and savings available only to Members. Get first access to our programs, behind-the-scene opportunities, discounts, exclusive invitations to events such as exhibition previews, and free museum access for one year.

# about us

Art museum with permanent collections, temporary exhibitions, art consulting, custom framing, art conservation, art research and many more, a one stop art destination in support for art ecosystem in Indonesia. Art: 1 New Museum consists of a few galleries, which are open for creative collaborations.

Art: 1 New Museum is privately owned museum and was established in 2011 by Mon Decor Gallery, founded by Martha Gunawan back in 1983 as interior decorating business that was boldly developed into the first professional art gallery in Jakarta. Its core activities is to bring awareness on Indonesian art and its history, designing art exhibitions, and to become a venue for collectors and artists by displaying only curated, high quality fine art.

Art: 1 is a frame of reference. The meaning of "art for everyone" refers to art with magnitude, i.e. art that possesses values, which are considered important by the public. It is within this frame of reference that art is believed to be a cultural activity, as a basis of public involvement in the establishment of art values.
