SPECIAL EVENTS

15-FRI

10:00 GRAND
OPENING & SPEECH
14:00 WORKSHOP:
"DIY DNA
EXTRACTION"

17-SAT

10.30 CHEM MAKING DEMO
12:00 PANEL DISCUSSION: "THE
RISE OF AI"
15:00 ROBOTICS SHOWCASE

19-SUN

10:30 LECTURE: "CLIMATE CHANGE"
13:30 ECO-INNOVATION EXPO
16:00 WATER ROCKET SHOW: " THE
POWER OF HYDRONYX"

20-MON

10:30 SCIENCE PROJECT COMPETITION &
JUDGING
17:00 CLOSING CEREMONY & WINNER
ANNOUNCEMENTS

Join us for a hands-on **DIY DNA Extraction workshop!** Discover the fascinating world of genetics as you learn to extract DNA from everyday fruits. Guided by expert instructors, you'll use simple household materials to reveal the building blocks of life.

Join **Professor Garry Greenadle** for an engaging chemical demonstration that brings the wonders of chemistry to life! Watch as he showcases captivating reactions and innovative techniques, explaining the science behind each experiment in an accessible and entertaining way.
